Certificate of Registration

GMCSPL hereby certify that the organization

VINUTHANA CHEM TECH PVT.LTD.

Shed No.22D, Phase - I, I.D.A,
Pashamylaram, Patancheru (M),
Sangareddy District - 502 307,
Telangana State, India.

Has established and applies a Quality Management System in accordance with

ISO 9001:2015

For the scope of activities :

Manufacturing and Supply of Raw Materials / Reagents
(1,3 Dicyclohexyl - Carbodiimide),
Key Starting Material (2 - Acetoxy Ethyl Acetoxy Methyl Ether)
and Solvent Purification

Q-200305 Certificate Number	04 March 2022 Date of Last Issue
04 March 2020 Date of Initial Registration	03 March 2023 Date of Expiry

Global MCS

IAS ACCREDITED Management Systems Certification Body MSCB 122

IAF

Certificate is Valid for 1 Year (04.03.2022 to 03.03.2023) From the Date of Last Issue. Upon Successful Completion of Re Certification Audit New Certificate With an Extended Validity will be issued.

Signed on behalf of GMCSPL

MASTER COPY

Vinuthana Chem Tech Pvt. Ltd., Pashamylaram, Hyderabad.	
Material Safety Data Sheet	
Product: N, N-Dicyclohexyl carbodiimide	**Doc. No.: MSDS/001-00**

SECTION 1. Identification	
Product Name	**N, N-Dicyclohexyl carbodiimide**
Company Information	**Vinuthana Chem Tech Pvt. Ltd.** Shed No. 22D, Phase-1, IDA Pashamylaram Patancheru (M), Sangareddy district. Telangana
In case of emergency please contact	+91-9704885999
SECTION 2. Hazards identification	
Most important hazards	Very hazardous in case of skin contact (irritant, permeator), of eye contact (Irritant). Hazardous in case of ingestion, of inhalation. Slightly hazardous in case of skin contact (sensitizer). Severe over-exposure can result in death. Inflammation of the eye is characterized by redness, watering, and itching. Skin inflammation is Characterized by itching, scaling, reddening.
SECTION 3. Composition / Information on ingredients	
Characterization	Chemical intermediate
Chemical Name	Carbodiimide, dicyclohexyl
Synonyms	1, 3-Dicyclohexylcarbodiimide; Bis (Cyclohexyl) carbodiimide; Dicyclohexylcarbodiimide; N, N'-Methanetetrayl biscyclohexanamine
CAS Registry	[538-75-0]
EC Number	[208-704-1]
Molecular Formula	$C_{13}H_{22}N_2$
Molecular weight	206.33 g/mole

SECTION 4. First-aid measures

Eye contact

Immediate medical attention is required. Rinse immediately with plenty of running water, also under the eyelids, for at least 15 minutes.

Skin contact

Wash off immediately with plenty of water for at least 15 minutes. Obtain medical attention.

Serous Skin contact

Wash with a disinfectant soap and cover the contaminated skin with an anti-bacterial cream. Seek immediate medical attention.

UNCONTROLLED COPY

MASTER COPY

Inhalation

Move to fresh air. If breathing is difficult, give oxygen. Immediate medical attention is required. Do not use mouth-to-mouth resuscitation if victim ingested or inhaled the substance; induce artificial respiration with a respiratory medical device.

Ingestion

Do not induce vomiting. Obtain medical attention.

SECTION 5: Firefighting measures

Extinguishing media

Dry chemical. Chemical foam. Cool closed containers exposed to fire with water spray.

SECTION 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas. For personal protection see section 8.

SECTION 7: Handling and storage

Do not breathe vapors or spray mist. Do not get in eyes, on skin, or on clothing. Do not ingest. Use only in area provided with appropriate exhaust ventilation. Handle under inert gas, protect from moisture. Do not allow contact with water because of violent reaction. Keep away from open flames, hot surfaces and sources of ignition. Wear personal protective equipment.

Storage Condition

Store in a well-closed container.

UNCONTROLLED COPY

SECTION 8: Exposure controls/personal protection

Engineering Measures

Ensure adequate ventilation, especially in confined areas. Ensure that eyewash stations and safety showers are close to the workstation location.

Personal protective equipment

Eye/face protection

Safety glasses with side-shields conforming to EN166 Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

Skin protection

Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

Body Protection

Impervious clothing, the type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

MASTER COPY

Respiratory protection

Where risk assessment shows air-purifying respirators are appropriate use a full-face Respirator with multi-purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

Control of environmental exposure

Prevent further leakage or spillage if safe to do so. Do not let product enter drains.

SECTION 9: Physical and chemical properties

Information on basic physical and chemical properties

a. Appearance	Clear colorless Semi solid with low melting point
b. Odor	Characteristic odor
c. Odor Threshold	No data available
d. pH	Not relevant
e. Melting point/freezing point	
Melting point/range	34 - 35 °C - lit.
f. Initial boiling point and boiling range	122 - 124 °C at 8 hPa - lit. 48 – 152 °C at 15 hPa – lit.
g. Flash point	113°C – closed cup
h. Evaporation rate	No data available
i. Flammability (solid, gas)	No data available
j. Upper/lower flammability or explosive limits	No data available
k. Vapor pressure	0.0192 hPa at 25°C - OECD Test Guideline 104 1.15 Pa at 20°C
l. Vapor density	No data available
m. Relative density	1.01 at 25°C - OECD Test Guideline 109
n. Water solubility	No data available
o. Partition coefficient n-octanol/water	6.83 (25 °C) (TOXNET)
p. Auto-ignition temperature	No data available
q. Decomposition temperature	No data available
r. Viscosity	
Viscosity kinematic	No data available
Viscosity, dynamic	5.81 mPa s at 55 °C
s. Explosive properties	No data available
t. Oxidizing properties	No data available

UNCONTROLLED COPY

Other safety information

No data available

MASTER COPY

10: Stability and reactivity

Reactivity

Product is stable under normal temperature and pressure.

Chemical stability

Stable under recommended storage conditions.

Possibility of hazardous reactions

No data available

Conditions to avoid

Moisture, Heat, flames and sparks.

Incompatible materials

Strong oxidizing agents, Strong bases.
Refer Section -7 for Handling and storage.

Hazardous decomposition products

Hazardous decomposition products formed under fire conditions - Carbon oxides, Oxides of Phosphorus
Other decomposition products - No data available
In the event of fire: see section 5.

UNCONTROLLED COPY

SECTION 11: Toxicological information

Information on toxicological effects

Very hazardous in case of skin contact (irritant, permeator). Hazardous in case of skin contact (sensitizer) of ingestion of inhalation.

Skin corrosion/irritation
Skin - Rabbit
Result: No skin irritation
Skin – Rat
Result: LD50 is 71 mg/kg
Skin - guinea pig
Result: LD50 is 10 mL/kg;

Serious eye damage/eye irritation
Eyes - Rabbit
Result: Moderate eye irritation

Respiratory or skin sensitization
Inhalation – Rat
LC50 – 159 mg/m3/6H;
Results: Damage to Organs and Special Senses (Nose, Eye, Ear, and Taste)

Germ cell mutagenicity

In vivo tests showed mutagenic effects in vitro assay Chinese hamster ovary cells.

Result: Positive

Sister chromatid exchange in vitro assay mouse lymphoma cells.

Result: Positive

Cytogenetic analysis

Carcinogenicity

IARC: No component of this product present at levels greater than or equal to 0.1% is Identified as probable, possible or confirmed human carcinogen by IARC.

Reproductive toxicity

No data available

Specific target organ toxicity - single exposure

No data available

Acute inhalation toxicity - Possible damages: mucosal irritations

Specific target organ toxicity - repeated exposure

No data available

Aspiration hazard

No data available

Additional Information

Depending on the intensity and duration of exposure, effects may vary from mild irritation to severe destruction of tissue., May cause blindness., Symptoms may be delayed.

To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

UNCONTROLLED COPY

SECTION 12: Ecological information

Toxicity

Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

The product contains following substances which are hazardous

Component	Fresh Water Algae	Freshwater fish	Microtox	Water fleas
Methylene chloride	EC50:>660 mg/L/96h	Pimephales promelas: LC50:193 mg/L/96h	EC50: 1 mg/L/24 h EC50: 2.88 mg/L/15 min	EC50: 140 mg/L/48h
Dicyclohexyl carbodiimide	Not Listed	Oryzias latipes: (Commonly known as Japanese rice fish) LC50=250mg/L/48h	EC50>1000mg/L/3h	Not listed

MASTER COPY

Persistence and degradability

Persistence is unlikely.

Degradability in AEROBIC condition : Dicyclohexyl carbodiimide, present at 100 mg/L, reached 0-1% of its theoretical BOD in 4 weeks using an activated sludge inoculum at 30 mg/L in the Japanese MITI test (1).

Bio accumulative potential

Dicyclohexyl carbodiimide bioconcentration factor values of <0.2 to <2.2 were measured for carp (Carprinus carpio) exposed to 0.1 mg/L and 1 mg/L Dicyclohexyl carbodiimide over a 6-week exposure period (1). According to a classification scheme (2), these bioconcentration factor values suggests bioconcentration in aquatic organisms is low stimulus response and consequence (SRC). Since Dicyclohexyl carbodiimide reacts with water (3), bioconcentration in aquatic organisms is not expected to be an important fate process (SRC)

Mobility in soil

Using a structure estimation method based on molecular connectivity indices, the soil organic partition coefficient (KOC) of dicyclohexyl carbodiimide can be estimated to be 3X10+4(SRC). According to a classification scheme, this estimated KOC value suggests that dicyclohexyl carbodiimide is expected to have slight mobility in soil. Dicyclohexyl carbodiimide reacts with water; in moist soils, Dicyclohexyl carbodiimide can react (hydrate) to form dicyclohexylurea which has an estimated KOC of about 100 indicating high mobility in soil.

UNCONTROLLED COPY

Results of PBT and vPvB assessment

This substance/mixture contains no components considered to be either persistent, Bio accumulative and toxic (PBT), or very persistent and very bio accumulative (vPvB) at levels of 0.1% or higher.

Other adverse effects

No data available

SECTION 13: Disposal considerations

Waste treatment methods

Product

This combustible material may be burned in a chemical incinerator equipped with an after burner and scrubber. Offer surplus and non-recyclable solutions to a licensed disposal company.

Contaminated packaging

Containers can be triply rinsed (or equivalent) and offered for recycling or reconditioning. Alternatively, the packaging can be punctured to make it unusable for other purposes and then be disposed of in a sanitary landfill. Controlled incineration with flue gas scrubbing is possible for combustible packaging materials.

SECTION 14: Transport information

UN number

ADR/RID: UN2811 | IMDG: UN2811 | IATA: UN2811

MASTER COPY

UN proper shipping name

ADR/RID: TOXIC SOLID, ORGANIC, N.O.S.

IMDG: TOXIC SOLID, ORGANIC, N.O.S.

IATA: TOXIC SOLID, ORGANIC, N.O.S.

Transport hazard class(es)

ADR/RID: - IMDG: - IATA: -

Packaging group

ADR/RID: - IMDG: - IATA: -

Environmental hazards

ADR/RID: no IMDG Marine pollutant: no IATA: no

Special precautions for user

No data available

SECTION 15: Regulatory information

Safety, health and environmental regulations/legislation specific for the substance or mixture

This safety datasheet complies with the requirements of Regulation (EC) No. 1907/2006R EACH - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, preparations and articles (Annex XVII)

Chemical safety assessment

For this product a chemical safety assessment was not carried out.

SECTION 16: Other information

Full text of H-Statements referred to under sections 2 and 3.

H319 Causes serious eye irritation.

H340 May cause genetic defects.

H361f Suspected of damaging fertility.

Further information

The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. The information in this document is based on the present state of our knowledge and is applicable to the product with regard to appropriate safety precautions. It does not represent any guarantee of the properties of the product.

NITROSAMINE IMPURITY FREE DECLARATION

Name of the product : **N, N-Dicyclohexyl carbodiimide**
CAS Registry : **[538-75-0]**

We Vinuthana Chem Tech Pvt. Ltd. located at Shed No. 22 D, Phase-I, IDA Pashamylaram, Patancheru (M), Sangareddy Dist., Telangana, INDIA, PIN -502307, hereby confirm that the risk evaluation applying principles outlined in the notice "Information on nitrosamines for marketing authorization holders", for the product of **N, N Dicyclohexyl carbodiimide** by using quality risk assessment principles, as per ICH Q9 guideline, EMA guideline (EMA/428592/2019 & EMA/428592/2019 19 Sep 2019) and ICH M7.

A risk evaluation study divulges that the manufacturing facility (s), equipment (s), utility (s), batch production processes, starting materials, raw materials, intermediates, packing materials, recycled/recovered solvents and other source of contamination, production aids were reviewed and confirm that there is no potential risk of nitrosamines impurities formation or presence in any of above stated and product **N, N Dicyclohexyl carbodiimide** is free from nitrosamine impurities and meets compliance standards as stated in EMA and ICH guidance documents. Further we will evaluate the impact, revise this necessary and inform our customers of the outcome.

We hereby conform that time that on time we will notify any changes in our manufacturing process/ingredients used or site of manufacture that will affect the above declaration prior to supply of any batch of **N, N Dicyclohexyl carbodiimide** product.
